

KJM STONES · ENGINEERED QUARTZ

Calacatta *Milano*

Italian sophistication, timeless movement

Sweeping veins of warm gold and soft grey trace a bright white field — a design that captures the fashion-house elegance of Italian marble with the enduring strength of premium quartz. Calacatta Milano brings runway sophistication to the everyday.

— Italian elegance, engineered to last — the fashion of stone

SPECIFICATION

Name	Calacatta Milano
Material	Engineered quartz
Appearance	White base · gold & grey veining
Finish	Polished
Thickness	3 cm
Slab size	Jumbo · 138" × 79"
Origin	Engineered in Vietnam
SKU	KJM-CM-3006

PERFORMANCE

- Non-porous — no sealing required
- Scratch resistant
- Stain resistant
- Heat resistant (use trivets)
- Consistent slab-to-slab pattern

APPLICATIONS

Countertops · islands · waterfall edges · backsplashes · bathroom vanities · feature & accent walls · commercial surfaces

Marketing note: describe as the look of Italian Calacatta marble — Calacatta Milano is engineered quartz, not natural stone. Slight variation in veining is inherent to the material.
