

KJM STONES · ENGINEERED QUARTZ

Taj Mahal

warm earth, timeless elegance

Flowing layers of cream, taupe, and soft brown move across a warm beige field — capturing the earthy beauty of natural Taj Mahal quartzite with the enduring strength and low upkeep of premium quartz. A surface that brings warmth to every room it enters.

— the quartzite look, engineered to last — natural warmth, effortless care

SPECIFICATION

Name	Taj Mahal
Material	Engineered quartz
Appearance	Warm beige base · taupe & brown veining
Finish	Polished
Thickness	3 cm
Slab size	Jumbo · 138" x 79"
Origin	Engineered in Vietnam
SKU	KJM-TM-3005

PERFORMANCE

- Non-porous — no sealing required
- Scratch resistant
- Stain resistant
- Heat resistant (use trivets)
- Consistent slab-to-slab pattern

APPLICATIONS

Countertops · islands · waterfall edges · backsplashes · bathroom vanities · feature & accent walls · commercial surfaces

Marketing note: describe as the look of natural Taj Mahal quartzite — this is engineered quartz, not natural stone. No sealing required. Slight variation in veining is inherent to the material.
